

Radix Logo Design Instructions

You will need a compass and straightedge.

1. Construct line A-L
2. Construct line B-M
3. Construct line C-N
4. Construct line D-O
5. Construct line E-P
6. Construct line F-Q
7. Construct line G-R
8. Construct line H-S
9. Construct line I-T
10. Construct line J-20
11. Construct line A-11
12. Construct line 1-12
13. Construct line 2-13
14. Construct line 3-14
15. Construct line 4-15
16. Construct line 5-16
17. Construct line 6-17
18. Construct line 7-18
19. Construct line 8-19
20. Construct line 9-20
21. Construct square
A-K-20-10
22. Label intersection of lines
E-P and F-Q point U
23. Label intersection of lines
DO and G-R point V
24. Make circle with center U and radius UV
25. Label intersection of line D-O and F-Q point W
26. Mark intersection of line K-10 and circle UV, label X (opposite of point V)
27. Make arc with center X and radius W-X, starting at its intersection with E-P, passing through point W and ending at its intersection with F-Q
28. Erase everything inside this arc and labels U through W.
29. RADIX!
